

# Pollinators in Memorial West Park Coming this Summer!

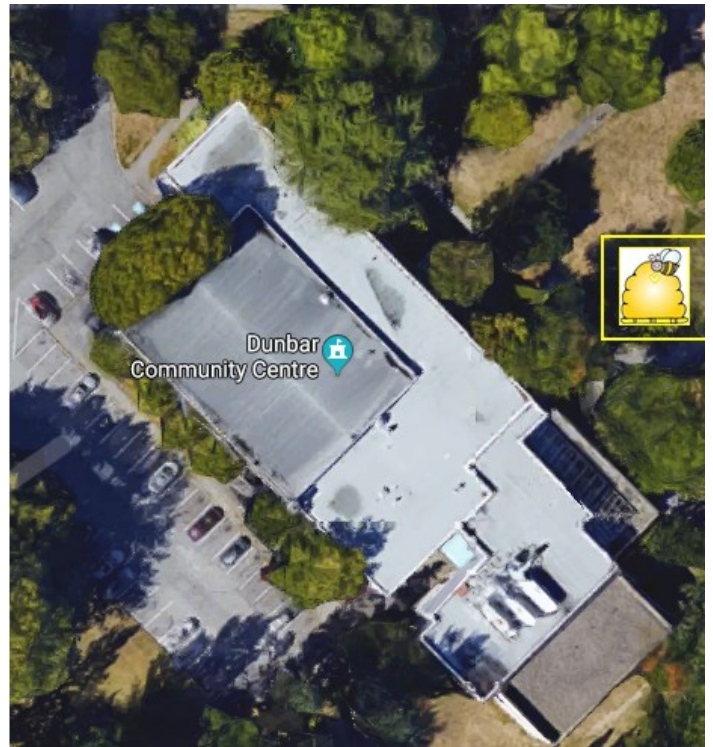

## What's happening?

The Dunbar Community Centre Association is working with Hives for Humanity and the Vancouver Park Board to host beehives and pollinator plants in Memorial West Park to the east side of the community centre. The fenced enclosure will be in place this summer and the beehives will arrive soon after! The apiary will be managed by the DCCA, Hives for Humanity and community volunteers.

## Project Benefits

Supports the DCCA's key values of sustainability, inclusivity and community and the Park Board's Biodiversity Strategy through:

- \*Opportunities for environmental education
- \*Habitat for wild & managed bee and pollinator populations, supporting ecosystem diversity
- \*Community-building through accessible and inclusive programming (see page 40 & 42 of our rec guide for current workshop schedules: <http://dunbarcentre.org/dunbar/wp-content/uploads/2018/03/DCC-SpringSummer18.pdf>)

## For more information:

Please visit the Hives for Humanity table at [Salmonberry Days Fair on Sunday, May 27, 11am-3pm](#) or email us at [dunbarcc@vancouver.ca](mailto:dunbarcc@vancouver.ca).
